

STRAIGHT FORWARD PROJECT NEEDS

BIG IMPACT

IMMEDIATE RESULTS

## NEW VEHICLE NEEDED

MAY 2019

With 260 students and 20 staff members, CBC depends on an everyday for buying food, transporting staff and administration.

### THE NEED

To purchase a new or nearly new vehicle for immediate daily use. The project is currently relying on costly rented transport.

- To purchase food, school materials and equipment
- Transport to work for up to 7 staff members
- Take children home if they become sick
- Administrative trips to bank, suppliers and other errands.

### THE COST \$25,000

New vehicle will be a FIAT Doblo, The cost will also include some small modifications we will make to adapt the vehicle to our needs and protect it from wear and tear.

### WHO WILL BENEFIT?

All 260 students at the project will benefit directly from this new vehicle. It is key to the safe daily running of the project. Staff will also benefit as we will have a safe means to transport people to and from work, especially when the social conditions of the slums poses a risk to the safety of public transport. Unfortunately this is a common reality.

### HOW CAN YOU HELP?

Make a donation, start a campaign or hold a fundraising event to help us.
